Foundry Trade Journal,

THE

# FOUNDRY TRADE JOURNAL

(with which is incorporated THE IRON AND STEEL TRADES JOURNAL)

ESTABLISHED 1902

## INDEX TO VOLUME LXII

*January to June, 1940*

**Head Office:**
**49, Wellington Street, London, W.C.2**

# Index to Volume LXII

## SUBJECT INDEX

**A**

Acid Electric Furnace Practice, 9.
Acid Smelting in the Blast Furnace, 455.
Aeroplanes, German Troop-Carrying, 488.
Alloy Cast Irons, 487.
Alloy, General-Utility Non-Ferrous Casting, 397.
Alloy Steels at Low Temperatures, Physical Properties of, 462.
Alloyed Cast Iron, Cupola Operation for Making, 8.
Alloys, Development of Some Gating and Feeding Methods for High-Duty, 443.
Aluminium-Alloy Castings, Cleaning, 153.
Aluminium-Alloy Castings, Decorative Finishing of, 168.
Aluminium and Antimony on Cast Red Brass, Effect of, 79, 97.
Aluminium Casting, Porosity Elimination in an, 466.
Aluminium, Importation of, 101.
Aluminium Solder, Use of, 96.
American Foundries Fared in 1939, How, 38.
American Foundrymen's Association, Plans and Papers for Annual Convention, 244, 322.
American Foundrymen's Association, Gold Medal Awards, 322.
American Society for Testing Materials, Committee Week in Detroit, 296.
Anti-Glare Measures, 420.
Anti-Piping Compounds, 222.
Antimony on Cast Red Brass, Effect of Aluminium and, 79, 97.
Apprentices, Technique of Training, 457.
Automobile Construction, Applications of Cast Iron in Modern, 383, 403.

**B**

Balance-Wheel in Loam, Moulding a, 64.
Balanced-Blast Cupola and Fluidity, 113, 133.
Bath Association Wound Up, International, 306.
Bellfoundry, Lighting in a, 184.
Bells Were Cast in Churches, When, 182.
Bending-Block Casting, Moulding a, 258.
Blast Furnace, Acid Smelting in the, 455.
Brass, Effect of Aluminium and Antimony on Cast Red, 79, 97.
Brunswick and Linz, Herman Göring Steelworks at, 277.
Buildings, Foundry Lay-out and, 154.

**C**

Calcium Carbide, Desulphurisation of Pig-Iron with, 73.
Calling-up Postponement Certificates, 328.
Calling-up Provisions, Employers' Obligations under, 156.
Camshafts, Cast, 175.
Carbon and Silicon, Equilibria in Liquid Iron with, 234.
Carbon, Magnetic Determination of, 65.
Cast Camshafts, 175.
Cast Iron and its Relation to Machine Tools, 205, 300.
Cast Iron, Chromium-Silicon, 137.
Cast Iron, Copper in, 181, 203.
Cast Iron, Cupola-Melted High-Duty, 93, 116.
Cast Iron, Cupola Operation for Making Alloyed, 8.
Cast Iron for Modern Engineering Applications, 155, 169, 185.
Cast Iron, Gas in Liquid, 439.
Cast Iron in Modern Automobile Construction, Application of, 383, 403.
Cast Iron in 1939, High-Duty, 31.
Cast Iron, Influence of Ladle Additions on the Properties of, 325, 350, 365.
Cast Iron, Some Principles of Enamelling of, 260, 331.
Cast Iron, Study in Grey, 235.
Cast Iron, Welding of, 377.
Cast Iron with Special Reference to War Conditions, Extended Uses of, 437.
Cast Irons, Alloy, 487.
Cast Irons, Chromium Heat-Resisting, 463, 485.
Cast Irons, Stress-Relieved, 217.
Cast Irons, Types of High-Duty, 51.
Casting of Copper, Melting and, 468.
Casting, Welding as Substitute for, 173.
Castings in Green Sand, Electric-Motor, 379, 401.
Castings in Iron, Producing Sound, 417, 452.
Castings, Local Densening of Iron, 368.
Castings, Machining Allowances on, 323.
Castings, Merchandising of, 271, 293, 314.
Castings, Patterns and, 361.
Castings, Production of Pressure-Resisting and High-Duty Iron, 469, 479.
Castings, Production of Some Engineering, 298, 311, 329, 342.
Cement-Bonded Moulding Sand, Reconditioning of, 287.
Centenaries in the Iron and Steel Industry, 67.
Chain Slings, Selection of, 454.
Charcoal-Iron Industry, 55.
Charging Machines for Enamelling Ovens, 106.
Chromium Heat-Resisting Cast Irons, 463, 485.
Chromium-Silicon Cast Iron, 137.
Cleaning Aluminium-Alloy Castings, 153.
Cleaning Hygiene, Metal, 3.
Climatic Conditions on Enamelling, Influence of, 12.
Cobalt-Nickel-Silicon Systems, 300.
Coke, Metallurgical, 286.
Compensation Awards for 1938, Workmen's, 448.
Contraction in Grey Cast Iron, Some Observations on, 432.
Contraction, Some Notes on Liquid Shrinkage and, 81.
Control Aspects in the Repetition Foundry, 328, 488.
Copper-Base Alloys to Retain Physical Properties, Melting of, 477.
Copper in Cast Iron, 181, 203.
Copper, Melting and Casting of, 468.
Copper, Still More, 476.
Coppers Classified, Commercial, 11.
Core Grids, Cast-Iron, 136.
Cores for Large Pipes, 115.
**Correspondence—**
Costing Systems, 7.
Desulphurising Pig-Iron, 476.
Electric Furnace Melting Costs, 412, 462.
Monolithic Linings for the Cupola, 92.
Novel Dowel, 280.
Pre-1914 Cast Iron, 148.
Publications and Malleable Production, 412.
Wartime Inventions, 92.
Couplings, Moulding, 382.
Cupola and Fluidity, Balanced-Blast, 113, 133.
Cupola-Melted High-Duty Cast Iron, 93, 116.
Cupola Operation for Making Alloyed Cast Iron, 8.
Cupola Troubles, Their Causes and Remedies, Some, 482.
Cupolas, Monolithic Linings for, 63.
Cylinder Wear, 210.

**D**

Danish Iron and Steel Plans, 164.
De-enamelling of Vitreous-Enamelled Steel and Sheet Iron, 102, 188.
Deformation and Flowability Tests of Moulding Sands, 416.
Deformation, Sand Testing with Special Reference to, 199.
Densening of Iron Castings, Local, 368.
Deoxidisers used in Steel Manufacture, 309.
Desulphurisation of Pig-Iron, 298.
Desulphurisation of Pig-Iron with Calcium Carbide, 73.
Die-Casting, Gravity and Pressure, 483.
Die-Castings, Electro-Plating Practices for Zinc Alloy, 449.
Director, Removal of a, 354.
Dowel, Novel, 216.
Dudley, Limited, New Light Castings Foundry of Thomas, 351.
Dust Catcher, New, 419.

**E**

Electric Furnace Installation in South Africa, Largest, 251.
Electric Furnace Practice, Acid, 9.
Electric-Motor Castings in Green Sand, 379, 401.
Electricity as Applied to Metallurgy, 254.
Electricity Supply: C.E.B. Report for 1939, 308.
Electro-plating Practices for Zinc Alloy Die-Castings, 449.
Enamel Slips, Control of, 104.
Enamelling Exhibition in London, 270.
Enamelling, Influence of Climatic Conditions on, 12.
Enamelling of Cast Iron, Some Principles of, 260, 331.
Enamelling on Precious Metals, 421.
Enamelling Ovens, Charging Machines for, 106.
Engineering Castings, Production of Some, 289, 311, 329, 342.
Equipment during 1939, Foundry, 33.
Excess Profits Tax, 112.
Export Council, Aims of, 214.
Export Group, Foundry Equipment, 338.

**F**

Factories, Loans for Repair of War-Damaged, 396.
Fatigue Failure of Locomotive Tyres, 184.
Feeding Methods for High-Duty Alloys, Development of Some Gating and, 443.
Feeding of Castings, Gating and, 253.
Flowability Tests of Moulding Sands, Deformation and, 416.
Fluidity, Balanced-Blast Cupola and, 113, 133.
Founders' Forum, 53, 67, 96, 234, 295, 367, 406, 479.
Foundry Equipment Export Group, 338.
Foundry in Palestine, Modern, 167.
Foundry of Thomas Dudley, Limited, New Light Castings, 351.
Foundry Practice and Science, Examinations in, 77.
Foundry Relationships with Industry, 76.
Foundry Trades' Equipment and Supplies Association, Annual Meeting of, 272.
Furnace for Very High Temperatures, Laboratory Gas, 257.
Furnace Installation in South Africa, Large Electric, 251.
Furnaces, Improvements in Radiation, 275.
Furnaces, Modern Electric Heat-Treatment, 124, 135.

**G**

Gas Burners, Design Desiderata in, 474.
Gas Furnace for Very High Temperatures, Laboratory, 257.
Gas in Liquid Cast Iron, 439.
Gas Producers, Operation of, 220.
Gating and Feeding Methods for High-Duty Alloys, Development of Some, 443.
Gating and Feeding of Castings, 253.
Gating and Pouring Temperatures in Non-Ferrous Foundry Practice, 99, 117.
Gears, Large Winder, 180.
German Troop-Carrying Aeroplanes, 488.
Gravity and Pressure Die-Castings, 483.
Green Sand, Electric-Motor Castings in, 379, 401.
Grey Cast Iron, Some Observations on Contraction in, 432.
Grey Cast Iron, Study in, 235.
Grey-Iron Castings, Permanent-Mould, 152.
Grey-Iron Foundry Industry in 1939, 21.

**H**

Hammers, British Standard Hand, 18.
Hand Machines?, Power or, 388.
Health Insurance and Pension Contributions, 412.
Heat-Resisting Cast Irons, Chromium, 463, 485.
Heat-Treatment Furnaces, Modern Electric, 124, 135.
Heat-Treatment of Light-Alloy Castings, 359, 385.
Heath's Contribution to the British Steel Industry, 142.
Hermann Göring Steelworks at Brunswick and Linz, 277.

E. Eng. Lib.

High-Duty Alloys, Development of Some Gating and Feeding Methods for, 443.
High Duty Alloys, Limited, New Research Laboratories of, 347.
High-Duty Cast Iron in 1939, 31.
High-Duty Cast Irons, Types of, 51.
High-Duty Iron Castings, Production of Pressure-Resisting and, 469, 479.
Hygiene, Metal Cleaning, 3.

I

Inclusions in Steel Castings, Formation of, 413.
Income-Tax Assessment, 306.
**Institute of British Foundrymen—**
Annual Report, The 37th, 429.
Birmingham, Coventry and West Midlands Branch, Annual Meeting, 342.
Cheltenham Conference Abandoned, 394.
District Presidents, 2, 96.
East Midlands Branch, Annual Dinner, 240.
East Midlands Branch, Annual Meeting, 336.
Election of New Members, 92, 352.
Lancashire Branch, Annual Dinner, 132.
Lancashire Branch, Annual Meeting, 316.
London Branch, Annual Meeting, 358.
Scottish Branch, Annual Meeting, 293.
West Riding of Yorkshire Branch, Annual Dinner, 78.
West Riding of Yorkshire Branch, Annual Meeting, 352.
Work of the Institute in 1939, 27.
Institute of Vitreous Enamellers, Extraordinary Meeting of the, 462.
Insurance Premiums, Life, 482.
International Association for Testing Materials, 381.
Iron and Steel Institute, 15.
Iron and Steel Institute, Annual Meeting in London, 276, 345.
Iron, Producing Sound Castings in, 417, 452.
Iron with Carbon and Silicon, Equilibria in Liquid, 234.
Ironfounders' National Confederation, 364.
Ironfoundry Practice and Its Effect on Mechanical Tests, 370.
Ironfoundry Practice, 1919-1939, 208.

L

Laboratories of High Duty Alloys, Limited, New Research, 347.
Laboratory Gas Furnace for Very High Temperatures, 257.
Ladle Additions on the Properties of Cast Iron, Influence of, 325, 350, 365.
Lay-out and Buildings, Foundry, 154.
**Leaders:—**
Cheltenham Conference, 357.
